

OVERVIEW

The ViewTrans program allows you to view transactions from your POS system

USING THE SYSTEM

1. Run ViewTrans.exe
2. Select the date and the departments. The pre-ticked departments can be configured as shown in the configuration section below

CONFIGURATION

1. You don't need to install to run. Just download from <http://www.derbydatabases.com/Deploy/ViewTrans>
2. Once downloaded, Unzip to folder / USB and modify the ViewTrans.exe.exe.config file

Using Notepad change the Data Source, Initial Catalog and the default department list as highlighted below

```
<?xml version="1.0"?>
<configuration>
  <configSections>
    <sectionGroup name="applicationSettings" type="System.Configuration.ApplicationSettingsGroup, System, Version=4.0.0.0, Culture=neutral, PublicKeyToken=b77a5c561934e089">
      <section name="ViewTrans.Properties.Settings" type="System.Configuration.ClientSettingsSection, System, Version=4.0.0.0, Culture=neutral, PublicKeyToken=b77a5c561934e089" requirePermission="false"/>
    </sectionGroup>
  </configSections>
  <connectionStrings>
    <add name="ViewTrans.Properties.Settings.ConnectionString"
connectionString="Data Source=. \sqlexpress;Initial Catalog=ITSDryStock;Integrated Security=True"
providerName="System.Data.SqlClient" />
  </connectionStrings>
  <startup>
    <supportedRuntime version="v4.0" sku=".NETFramework,Version=v4.0,Profile=Client"/>
  </startup>
  <applicationSettings>
    <ViewTrans.Properties.Settings>
      <setting name="DeptList" serializeAs="String">
        <value>12,21,22</value>
      </setting>
      <setting name="debug" serializeAs="String">
        <value>False</value>
      </setting>
    </ViewTrans.Properties.Settings>
  </applicationSettings>
</configuration>
```
